Subject Index

Abused women
  confronting barriers to universal screening for domestic violence, 313-320
Accreditation
  as driver for CQI in nursing education, 298-299
Acute care settings
  nurses' use of palliative care practices in, 14-22, 107 *(Letter)*
Administration, nursing education
  faculty investment model for, 74-80
Advanced practice nurse(s)
  impact of telenursing and interstate compact, 243-247
  professionalism in nursing behaviors of nurse practitioners, 203-210
Affirmative action
  and men in nursing, 3
American Association of Colleges of Nursing (AACN)
  distance technology use in member schools, 7-13
  Position Statement
    baccalaureate degree in nursing as minimal preparation for professional practice, 267-269
  publication of *Ask a Nurse (Editorial)*, 211-212
  recommendations for educating nurses in genetics, 284
American Nurses Association (ANA)
  recommendations for educating nurses in genetics, 284
Ask a Nurse
  promoting nurses as health coaches (Editorial), 211-212
Assessment, health
  advanced, in nurse practitioner programs, 218-225
Attitudes
  of nursing students about patients of diverse cultures, 305-312
Autoimmune disorders
  Sjögren's syndrome, experiences of women with, 194-202

Baccalaureate degree program(s)
  BSN as minimal preparation for professional practice, 267-269
  concerns and priorities of RN-to-BSN students, 55-65
  easing transition to first nursing job, 156
  Fuld Leadership Initiative for Nursing Education program for, 23-32
  global health analysis project for students in, 96-100
  NCLEX-RN, predicting success on
    for graduates of, 121-127
    with computerized format, 158-165
  nursing theory in curricula of, 248-255
  students' attitudes and knowledge about patients of diverse cultures, 305-312
Bachelor of Science degree in Nursing (BSN)
  as minimal preparation for professional practice (AACN Position Statement), 267-269
  See also Baccalaureate degree program(s)
Behavior
  civility of nursing students, 81-86
  professionalism in nursing behaviors of nurse practitioners, 203-210
Benchmarking
  performance improvement indicators in nursing education, 299-300
Book reviews
  Bower: *Nurses Taking the Lead: Personal Qualities of Effective Leadership*, 270
  Fitzpatrick & Deller: *Fundraising Skills for Health Care Executives*, 322
  Schoolcraft & Novotny: *A Nuts and Bolts Approach to teaching Nursing*, 66
Business models
  faculty investment model, for college of nursing, 74-80
Business skills
  management skills in nurse practitioners program, 226-232

Career development
  in evaluation of nursing doctoral program outcomes, 87-95
Cheating
  student civility in nursing programs, 81-86
Chronic illness
  Sjögren's syndrome, experiences of women with, 194-202
Civility
  of nursing students, 81-86
Clinical judgment
  and critical thinking, shifting emphasis on, 215
Clinical practice
  nurse preceptors' use of tuition waivers, 147-150
  See also Practice
Clinical research
  quality issues in, implications on health policy, 233-242
Clinical scholarship
  facilitating among clinical-track faculty, 141-146
Coach, health
  promoting nurses as *(Editorial)*, 211-212
Collaboration
  cross-cultural, application of for research by teams in US and Russia, 33-39, 321 *(Letter)*
    acculturation, 36-37
    changing international business, 37-38
    cosmopolitan, 34-35
    cultural sensitivity in, 35-36
    cultural synergy, 38
    effective intercultural performance, 36-37
    intercultural communication, 35
    work culture, 38
    world culture, 38-39
  nursing's role in interdisciplinary, 275
  University of Iowa Nursing Collaboratory, 114-120
    four domains of, 116-118
    future programs, 119
    history, 115

initiatives, 118-119
intercollaboratory effort, 118
organization and governance, 115-116
Communication
in graduate nursing Web-based instruction, 128-134
Communication styles
in assessment of culturally competent scholarship, 261-262
Communications
telehealth services, benefits of, 73
Competency, nursing
cultural sensitivity, preparing graduates with, 111
leadership as, 24-25
Computers, *see* Internet, Technology, *and* Web-based instruction
Confidentiality
legal and ethical issues of, 213-214
Contextuality
in assessment of culturally competent scholarship, 259-260
Continuing education
on genetics, for practicing nurses, 285-286
Continuous quality improvement, *see* Quality improvement
Contract(s)
for faculty practice, 173-179
Coping strategies
of women with Sjögren's syndrome, 194-202
Critical thinking
and clinical judgment, shifting emphasis on, 215
Cross-cultural collaboration
application of for research by teams in US and Russia, 33-39, 321 *(Letter)*
acculturation, 36-37
changing international business, 37-38
cosmopolitan, 34-35
cultural sensitivity in, 35-36
cultural synergy, 38
effective intercultural performance, 36-37
intercultural communication, 35
work culture, 38
world culture, 38-39
Cultural competency
assessment of, in nursing scholarship, 256-266
application of Meleis's criteria for, 257-265
nursing students' knowledge and attitudes about patients of diverse cultures, 305-312
Cultural diversity
global health analysis project for BSN students, 96-100
making nursing the strongest link, 216
need for, in the health professions workforce, 4
nursing students' knowledge and attitudes about patients', 305-312
preparing culturally sensitive nurses, 111
Cultural sensitivity
preparing nurses with, 111
Cultures
cross-cultural collaboration, by US and Russian research teams, 33-39
Curriculum, nursing
advanced health assessment in nurse practitioner programs, 218-225
genetics, recommendations for, 283-290
for entry-level nursing programs, 286-288
for practicing nurses, 285-286
global health analysis project for BSN students, 96-100
interaction in graduate nursing Web-based instruct, ion, 128-134
international nursing course, assessing culturally competent scholarship in, 256-266
need for more palliative care and hospice content, 14-22
nursing theory, teaching of in Midwest nursing schools, 248-255
redesign of BSN, to develop leadership, 23-32
use of distance technology in, 10-11

Dean(s)
use of information technology by, 10
Death, of patients
nurses' use of palliative care practices in acute care settings, 14-22, 107-108 *(Letter)*
Dental health
Surgeon General's Report on Oral Health, 157
Disclosure
in assessment of culturally competent scholarship, 262-263
Distance education
development of master's program on the Web, 166-172
intellectual property and technology transfer, 155
mapping and managing polarities, 112
technology-enhanced, implementation of, 135-140
use of in AACN member schools, 7-13
what we know and what we do not know, 273-274
Distance learning, *see* Distance education
Diversity, *see* Cultural diversity
Doctoral degree program(s)
evaluation of, by alumni outcomes, 87-95
career development, 90-91
professional leadership, 92
scholarly productivity, 91
nursing theory in curricula of, 248-255
preparing nurse researchers *(Editorial)*, 271-272
Domestic violence
confronting barriers to universal screening for, 313-320

E-learning, *see* Distance education *and* Technology
Education, continuing
for practicing nurses, 285-286
Education, health professions
interdisciplinary, reality-oriented approach to, 278-282
Education, nursing
assessing culturally competent scholarship, 256-266
blueprints for the future, 6
bridging the gap between school and first nursing, job, 156
BSN as minimal preparation for professional practice (AACN Position Statement), 267-269
clinical judgment and critical thinking, 215
collaborative partnership between college of nursing and nursing services department, 114-120

confronting barriers to universal screening for domestic violence, 313-320
developing BSN leaders for the future, 23-32
distance
developing a master's program, on the Web, 166-172
implementation of, 135-140
mapping and managing polarities, 112
use in AACN member schools, 7-13
effect on nurses' use of palliative care practices, 14-22
ethics instruction in, 5
evaluation of outcomes of doctoral degree program, 87-95
faculty investment model for college of nursing, 74-80
faculty portfolio, to document scholarship of teaching, 180-186
genetics curriculum recommendations, 283-290
implementing CQI in, 297-304
Leadership Initiative for Nursing Education program, 23-32
nurse practitioner programs
advanced health assessment in, 218-225
practice management skills in, 226-232
nursing theory, teaching of in Midwestern nursing schools, 248-255
RN-to-BSN students' concerns and priorities, 55-65
student civility in nursing programs, 81-86
tuition waivers, nurse preceptors' use of, 147-150
Education, patient
nursing students' use of psychopharmacology game for client empowerment, 101-106
Educator(s), nurse
Fuld Leadership Initiative for Nursing Education f, or, 23-32
